

### Environment:

- She wants to move towards energy independence
- She wants to reduce electricity consumption 20% by 2020 "by changing the way utilities do business, catalyzing a green building industry, enacting strict appliance efficiency standards, and phasing out incandescent light bulbs"
- She will fund investments in alternative energy
- "An increase in fuel efficiency standards to 55 miles per gallon by 2030, and \$20 billion of "Green Vehicle Bonds" to help U.S. automakers retool their plants to meet the standards;
- A plan to catalyze a thriving green building industry by investing in green collar jobs and helping to modernize and retrofit 20 million low-income homes to make them more energy efficient;
- A requirement that all federal buildings designed after January 20, 2009 will be zero emissions buildings."

### Hillary Did Not Use Racial Comments Against Obama

Hillary Clinton feels what she had said to Barack Obama was greatly misinterpreted. We must acknowledge that because Obama is of another race she has not been able to say things that if said to John McCain would not have been labeled as a racial attack.

### Economy:

- She will propose "legislation to provide mortgage companies with protection against the threat of such lawsuits."
- Government action to tackle recession, not tax cuts.
- She voted to limit credit card interest to 30%.
- Supports 90-day moratorium on foreclosures and freeze interest rates.
- Wants to freeze mortgage interest rates for five years.
- She wants to help people facing foreclosure
- Balanced budget replaced with rising costs & falling wages.
- Pay down debt & cut taxes within balanced budget.
- She wants to protect next generation by paying off national debt.
